

Embedding Organisational Values or Behaviours

A series of interactive workshops and work based projects with the aim of bringing your company values or key behaviours alive and translate expectations into practical terms.

Approach

- ▶ We work in partnership with you to fully understand your expectations from your people and what is required from the values and behaviours you have identified.
- ▶ We then design interactive workshops to bring these values/behaviours alive – helping individuals reflect and understand how to embed the changes back in the workplace.
- ▶ Workshops are supported by a ‘tailor made tool kit’ for your organisation.

Business Benefits

- ▶ Increased employee morale, productivity and organisational effectiveness by living and breathing your key behaviours and values.
- ▶ Your people understand the “big picture” and where they fit in.
- ▶ A common message, common language and common understanding of the key values and behaviours that are important to your business success.
- ▶ Creates an open empowered environment in which people can take responsibility for their actions.
- ▶ Provides a foundation for succession planning.
